

Jevon Dängeli Therapist Code of Ethics

1. I will always act ethically and respectfully to support the professional relationship with my client.
2. I will take great care in creating an optimal therapeutic environment, which respects the client and their personal values.
3. I will honour all points stated in any verbal and/or contractual agreement, which has been agreed upon by my client and I will ensure that, prior to or at the initial session, my client understands the nature of my modality, the bounds of confidentiality, financial arrangements and other terms of our agreement.
4. I will always remain honest and never disclose private matters, which have been expressed to me in confidentiality by my client.
5. I will protect the confidentiality of my clients, unless it is legally imperative that I make a disclosure or have been given written permission to do so. If I find myself in a situation, in which I clearly do not have the skills appropriate for the situation, I will bring closure to the situation and make an appropriate referral.
6. I will at all times strive to recognize personal issues that may impair conflict or interfere with my performance or my professional relationships. Whenever the facts and circumstances necessitate, I will promptly seek professional assistance and determine the action to be taken, including whether it is appropriate to suspend or terminate my relationship with the client in question.
7. I will accurately identify my qualifications, expertise and experience as a Therapist.
8. I will do my best to ensure that my client leaves in a resourceful and alert state at the end of each therapy session.
9. I will be responsible for setting clear, appropriate, and culturally sensitive boundaries that govern any physical contact that I may have with my clients.
10. If I believe the client would be better served by another Therapist, or by another resource, I will encourage the client to make a change.
11. I will respect the client's right to terminate therapy sessions at any point during the process. I will be alert to indications that the client is no longer benefiting from my therapy sessions.
12. I will do my best to model and integrate the knowledge that everyone has their own best answers to any of life's challenges within them.
